Allowable Subject Matter

1. Claims 1-19 and 21 allowed.
2. The following is an examiner's statement of reasons for allowance:

Claims 1-19 and 21 are allowed because none of the prior art of record discloses or suggests a controller operable to communicate with at least one of a plurality of power distribution nodes and operable to set a standby mode or an active mode in each node, the controller in communication with a logic unit which itself places a power management device in a standby mode or an active mode, in combination with the remaining claimed features.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

3. Applicant's arguments, see Remarks, filed September 1, 2006, with respect to the objections and rejections have been fully considered and are persuasive. The objections and rejections has been withdrawn.
